

Paraprofessional

HOW TO READ YOUR BENCHMARK SCORE REPORT

OVERVIEW

This score report provides your test results for the Paraprofessional test that you took on the test date indicated on the report. The report provides your total test score, the Paraprofessional Benchmark passing score, and your performance in each domain or section of the test.

Cautions. This score report is for your records only. This test was not designed to compare your performance to that of other candidates. Your test score is used to compare your knowledge and skills to those required by various states and institutions in compliance with various paraprofessional requirements.

TEST RESULTS

Your Score. In this section, you will find your total test score for the test date listed. This score is based on the number of items you answered correctly across all domains/sections of the test and is converted to a scale that ranges from 100 to 300. Information on your performance on each domain/section of the test is provided in the "Domain Performance" section of your score report.

Benchmark Score. A Score of 220 represents the Paraprofessional Benchmark. This score does not necessarily determine your passing status. Passing status is determined by the state and is reported on your state-specific score report. You may access your state-specific score report by logging into your account via the website for that state.

DOMAIN PERFORMANCE

This section of your score report contains information regarding your performance on each domain on the Paraprofessional test. This information can help you identify your relative strengths and weaknesses.

For each domain, you will find the number of questions included in the domain and an indication of your performance level on the domain. This information will help you target more accurately your areas of strength and weakness. There are no passing scores for individual domains; passing status is based on total test score only.

Please keep in mind that minor fluctuations in domain scores are expected over repeated testing. You may improve your total test score by improving your performance in any area of the test. So any additional preparation that you undertake may contribute to improving your total test score.

CURRENT STATUS

This section shows the highest score you have earned on this test across all test attempts.

ADDITIONAL INFORMATION

Retaking the Test. You may retake the test by following the same registration procedures you completed for previous test administrations. Please note you must allow 30 days between test dates.
